Orthophonie VoxLingue Speech and Language

Printable sheet

Two weeks of notes: the words they stopped saying and their other skills

Fill this in while you call the CLSC or the doctor, not before.

A loss of words or skills is a reason to get a check right away. These notes help the doctor and the speech-language pathologist see what changed, and when. Don't ask your child to repeat: note what they say on their own.

Child's first name and age _____

Languages heard (home, daycare) _____

Date you called (CLSC or doctor) _____

The words they no longer say

The word	Last heard (date)	In which language	Said on their own, or only by repeating?

Their other skills, day by day

Tick each day you saw it.

Day	1	2	3	4	5	6	7	8	9	10	11	12	13	14
Points to show you a plane, a dog														
Uses gestures bye-bye, clapping														
Looks at you during play or talk														
Responds to their name turns when called														
Plays with you peekaboo, taking turns														
Follows a simple instruction "Give me the ball."														

What changed around them

- ☐ Illness or fever
- ☐ Ear infections
- ☐ Sleep
- ☐ A new baby
- ☐ A move
- ☐ Daycare (start, change)
- ☐ Other:

Videos taken

Date	What you filmed (bath, meal, play)

This week

Contact the CLSC or ask the doctor (Agir tôt, under 7, free). Ask for a hearing test if your child has never had one.

At the same time

A private speech-language pathologist, no referral needed. You keep your public place.

In Ontario

Preschool Speech and Language Program: register directly, no doctor's referral needed.
